## EXPERIENCE

---

### ANALYST PROGRAMMER , NÚCLEO DE DIAGNÓSTICO

JANUARY 2023 –  
PRESENT

My main responsibility is to develop the frontend of various company microservices, resulting in a significant reduction in execution time. Technologies used: Next.js, React.js, pure JavaScript, Django, CSS, and Bootstrap.

### GRAPHIC DESIGNER , EMPORIA X

NOVEMBER 2021 -  
JANUARY 2023

My role involved handling advertising, corporate, audiovisual design, and web layout. Technologies used: Figma, Illustrator, WordPress, HTML, and CSS.

## SKILLS

---

- Programming: JavaScript, Python and Typescript.
- Web Design: HTML, WordPress, CSS, Material UI, Tailwind, Bootstrap, and SASS.
- Tools: Git, Notion, and JIRA.
- Frameworks: React js, React Native, Next js, Django and Express js.
- Design: Figma, Illustrator, and Photoshop.
