github.com/DanielHernandezGalvez

I am a developer with about two years of experience in web development. I really like designing and developing the views of applications and websites with technologies such as javascript, react and php. I have contributed to the success of my company by providing web solutions both internally and to clients. I am very passionate about programming, I aspire to become a top-level developer in the future.

EXPERIENCE

WEB DEVELOPER, WOLF MARKETING 360

SEPTEMBER 2023 - PRESENT

My role is to contact the client to find out their needs and provide a solution with web technologies.

Tech stack: WordPress, PHP, Git, Next.js, React.js, JavaScript, Figma, Typescript, Tailwind, and Bootstrap.

FRONTEND DEVELOPER, NÚCLEO DE DIAGNÓSTICO

JANUARY 2023 - JULY 2023

My main responsibility is to develop the views of various company microservices and optimization of the user experience, which has resulted in a significant reduction in execution time.

Tech stack: Next.js, React.js, JavaScript, Git, Figma, Django, CSS, and Bootstrap.
